

Technical Specification Data Sheet

Product: B704A 8.5" Bottom Entry Delchem® Ball Valve

Approvals:

WRAS Approval No 0803060

Standards:

Conforms To BS1212 Part 3

Aprox Weight:

175g

Materials:

POM, Rubber

Packaging:

Printed Polythene Bag

Valve Type:

Part 3 Float Operated Diaphragm Valve

Product Specification

- Working Pressure – From 0.1 Bar to 14 Bar Mains Water Pressure
- Range of seats supplied to accommodate varying water pressures
- Float Arm Length - Adjustable From 160mm to 255mm
- Inlet Thread Size – ½" BSP to suit tap connector
- Normal Working Temperature – 0°C – 20°C
- Made From Recyclable Materials
- Manufactured in Hereford, England, UK
