

# Technical Specification Data Sheet

**Product: B801A Side Entry Delchem® Ball Valve**

**Approvals:**

WRAS Approval No 0803060

**Standards:**

Conforms To BS1212 Part 3

**Aprox Weight:**

114g

**Materials:**

POM, Rubber

**Packaging:**

Printed Polythene Bag

**Valve Type:**

Part 3 Float Operated Diaphragm valve

## **Product Specification**

- Working Pressure – From 0.1 Bar to 14 Bar Mains Water Pressure
- Range of seats supplied to accommodate varying water pressures
- Normal Working Temperature – 0°C – 20°C
- Float Arm length adjustable from 160mm to 255mm
- Inlet thread – ½" BSP to suit tap connector
- Made From Recyclable Materials
- Manufactured in Hereford, England, UK
